

From Design to Fabricated Components & Cut Pieces.

FABRICATING & CONVERTING

From The Velcro Companies

The Velcro companies, the world's largest manufacturers of quality hook and loop fasteners, have the conversion technology and the engineering capability to supply ready-to-use fastener components. Custom-fabricated to meet your requirements, ready-to-use components save time and machinery, labor and inventory costs. Each and every product manufactured by the Velcro companies, including VELCRO® brand, TEXACRO® brand and ULTRA-MATE® brand can be fabricated to meet the end-user's specifications.

A full range of design, engineering and application services are also available from the Velcro companies, including adhesive/substrate testing and closure system recommendations.

The Velcro Companies offer global fabricating & converting capabilities.

STRAIGHT CUT

- Accurate cutting to any customer-specified length
- Saves time and labor, eliminates waste

CUT AND MATED

- Ideal for products that require hook and loop closure for mounting or assembly
- Eliminates location problems

DIE-CUTTING

- High-speed equipment provides products shaped to your custom design requirements
- Capability exists for virtually any shape, including nipped corners, circles, holes, curves, etc.

SCORED PIECES

- Pressure sensitive hook or loop – “kiss cut” to release liner
- Ideal for in-house part assembly; reduces labor costs

MATED AND SCORED

- Hook and loop mated together, then "kiss-cut" to bottom release liner
- Ideal for applications where one side is applied during manufacturing and the other by the end user
- Useful for reducing in-house assembly location problems

STRAPS & ASSEMBLIES

- Custom-manufactured to customer specifications
- Options include ultrasonic welding and stitching
- Full range of hardware available
- Competitively priced
- Backed by the Velcro companies' award-winning quality systems

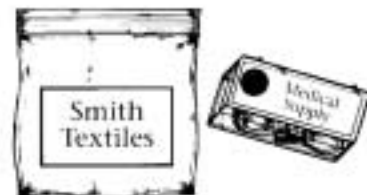

PERFORATED PARTS

- Hook and/or loop pieces are packaged on reels and snapped apart as needed
- Helps keep longer pieces from curling
- Keep solvent-activated coated tapes from sticking together

PACKAGING

- Hook and loop products ready for shipment to your customers
- Packaging options include poly-bags, boxes, thermoform blisters, UPC coding

IMPORTANT NOTICE TO PURCHASER

All statements, technical advice and recommendations contained herein are based on tests believed to be reliable, but the accuracy thereof is not guaranteed, and the following is made in lieu of all warranties, express or implied: Seller's and manufacturer's only obligation shall be to replace the quantity of product proved to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for his intended use, and user assumes all risk and liability whatsoever in connection therewith. No statement or recommendation not contained herein shall have any force or effect unless in an agreement signed by officers of seller and manufacturer.
